The matches against RAF/Wales, etc., Army and L&MRA are very much training events which allow for considerable experimentation so please feel free to indicate interest, regardless of whether or not you have previously been selected to shoot for Scotland. The RAF/Wales weekend is the primary training event of the year and I am looking for a high turnout at this event. A new event has been organised at 300m in April. This is to strengthen our 300 yard shooting: during this weekend we will have an outside coach giving training on positional technique, as well as a classroom session am on Sunday 18th. On all training weekends, participation by those from Scottish Schools and Universities will be welcomed.

For those who indicate availability for the 300m Shooting/Coaching/Classroom and/or RAF/Wales weekend, a fully detailed programme will be drawn up and sent out to them by e-mail, or for the few without e-mail, by post.

Captain of Scotland
